**We believe that
your footwear should
never limit your
adventures, whether
you're on city streets
or unmarked trails.**

That's why we make sneakerboots:
footwear that combines all-weather protection,
rugged construction, and adaptable styling
to take you from peak to pavement.

Our Principles

Seize the Day

We believe that every day is #AdventureWorthy and the best moments are often unplanned. With durable, all-weather sneakerboots, you'll never be limited by the gear on your feet.

Explore from Peak to Pavement

Our mountain-inspired, street-smart footwear is designed to capably handle any setting or terrain—one pair of shoes that does it all.

See the Bigger Picture

As a Climate Neutral-certified company, we measure and off-set 100% of our carbon emissions. We also use recycled and sustainable materials and partner exclusively with suppliers who are committed to ethical business practices.

A close-up, low-angle shot of a person's legs and feet as they cross a shallow, rocky stream. The person is wearing dark-colored hiking shoes. The left foot is lifted, showing the sole with a prominent tread pattern and a red 'MultiGrip' label. Water is splashing from the sole of the shoe. The right foot is planted on a rock. The background shows a lush green forest and a mountain range under a cloudy sky.

Trail Ready

For SS22, we're elevating our core collection with the new Cascade Trail for men and women. This all-terrain light hiker has a zonal waterproof design and a MultiGrip outsole to deliver versatility and traction through the most rugged terrain.

We're also introducing a low-top version of our men's Dispatch. The new Dispatch Low is a crossover low-top hiker with a premium leather design that's durable and waterproof.

DAVOS HIGH

The classic leather boot, reinvented for outdoor performance and luxurious comfort.

\$170 MSRP

Davos High Toffee

Davos High Mocha

Davos High Gunmetal
